

COME TO THE RIVER

- 1 Deep in the heart of our land and its rhythm,
There's a hostility running through.
Dark are the waters of this raging river,
Tearing the song of our land in two.

CHORUS *Come, to the edge of the river,
Come, see the things we do.
Come, to our people and listen,
We have a message to share with you.*

- 2 Here in a land full of tribal traditions,
What we believe makes us who we are.
We have the dancers, the drums and musicians,
Keeping the rhythm of Mambica.

CHORUS

Repeat whole song, as a 2-part round, with group 2 beginning as group 1 reach the 1st chorus, both parts ending on the chorus.

(NB The 2-bar break which appears after each chorus does not feature when the song goes into a round)
