

Activity 1)

Complete these subtractions.

1	$5251 - 500 = \square$	11	$1747 - 800 = \square$
2	$6382 - 60 = \square$	12	$2142 - 70 = \square$
3	$3420 - 700 = \square$	13	$2578 - 340 = \square$
4	$7574 - 800 = \square$	14	$8858 - 450 = \square$
5	$5643 - 50 = \square$	15	$2654 - 440 = \square$
6	$3456 - 90 = \square$	16	$6353 - 340 = \square$
7	$5198 - 600 = \square$	17	$3875 - 520 = \square$
8	$8663 - 90 = \square$	18	$7694 - 470 = \square$
9	$2585 - 500 = \square$	19	$6934 - 760 = \square$
10	$6835 - 40 = \square$	20	$5827 - 490 = \square$

Activity 2)

Avril's grandma was born in 1962. Which year was:

21	60 years before 1962.	
22	150 years before 1962.	
23	180 years before 1962.	

Extension)

	Start at 248. How many 100s will you have to count back to reach 48? How many 10s will you have to count back to reach 48?
