

21.01.2020

L.I: Add multiples of 10 and 100 to 4-digit numbers. (All)

L.I: Find 1 and 10 more or less using the 100-square. (Extra support)

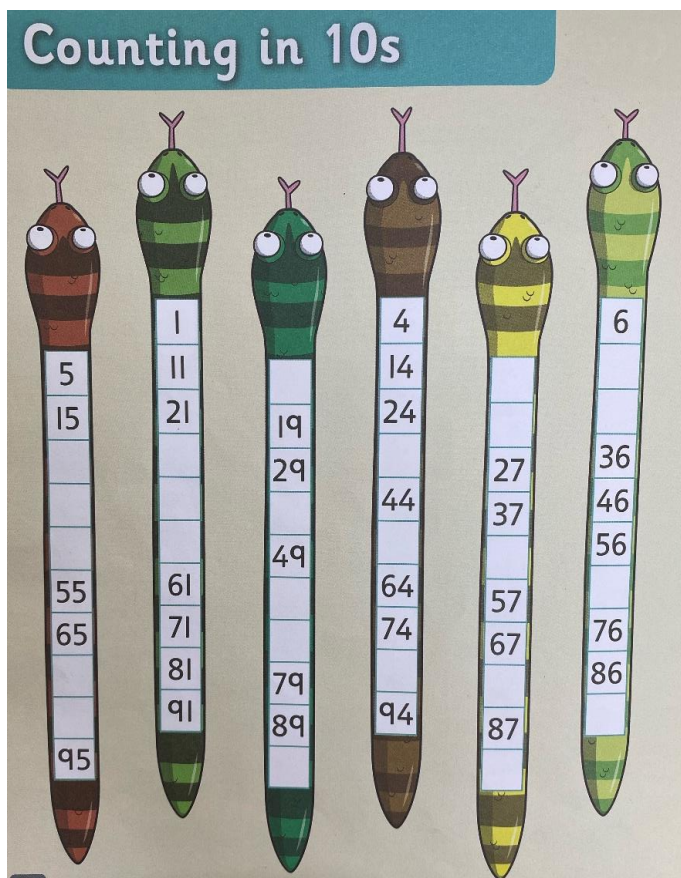

Activity 1)

This shape has been cut out from a 100-square.

- 1) What number comes after thirty-six? (box on the right)
- 2) What number comes before thirty-six? (box on the left)
- 3) What number is ten more than thirty-six? (box below)
- 4) What number is ten less than thirty-six? (box above)

Activity 2)

Activity 3)
