

20.1.21

LI- To know number bonds to 10 and begin to learn related subtraction facts

Subtractions using bonds

 $10 - 3 = \square$	 $9 - 5 = \square$
 $6 - \square = 2$	 $7 - 4 = \square$
$8 - 3 = \square$	$9 - \square = 5$
$8 - \square = 4$	$\square - 6 = 4$
$7 - 5 = \square$	$\square - 7 = 2$

Complete the subtractions. Use the pictures for the first four if it helps.

ACTION Use your fingers to help find the answers.

THINK Write as many subtractions as you can with an answer of 5.
 $\square - \square = 5$
