LI- To add two 3-digit numbers using an expanded column method

Use an expanded method to add these numbers.

1
$$\begin{array}{r} 326 \\ + 647 \\ \hline \end{array}$$

5
$$\begin{array}{r} 464 \\ + 339 \\ \hline \end{array}$$

9
$$\begin{array}{r} 726 \\ + 256 \\ \hline \end{array}$$

2
$$\begin{array}{r} 145 \\ + 473 \\ \hline \end{array}$$

6
$$\begin{array}{r} 415 \\ + 235 \\ \hline \end{array}$$

10
$$\begin{array}{r} 458 \\ + 257 \\ \hline \end{array}$$

3
$$\begin{array}{r} 453 \\ + 393 \\ \hline \end{array}$$

7
$$\begin{array}{r} 522 \\ + 284 \\ \hline \end{array}$$

11
$$\begin{array}{r} 366 \\ + 355 \\ \hline \end{array}$$

4
$$\begin{array}{r} 255 \\ + 561 \\ \hline \end{array}$$

8
$$\begin{array}{r} 633 \\ + 174 \\ \hline \end{array}$$

12
$$\begin{array}{r} 287 \\ + 677 \\ \hline \end{array}$$

- 13 A factory makes fireworks. On Monday they made 462 fireworks and on Tuesday they made 375. How many did they make in total?

- 14 There were 247 adults and 337 children at a firework display. How many people were there altogether?

- 15 At a firework display, a charity raised £485 from ticket sales and £277 from selling food. How much did it raise in total?

THINK

Write a word problem for the addition $528 + 364$.

I am confident with adding 3-digit numbers using a written method.
