

100 and beyond

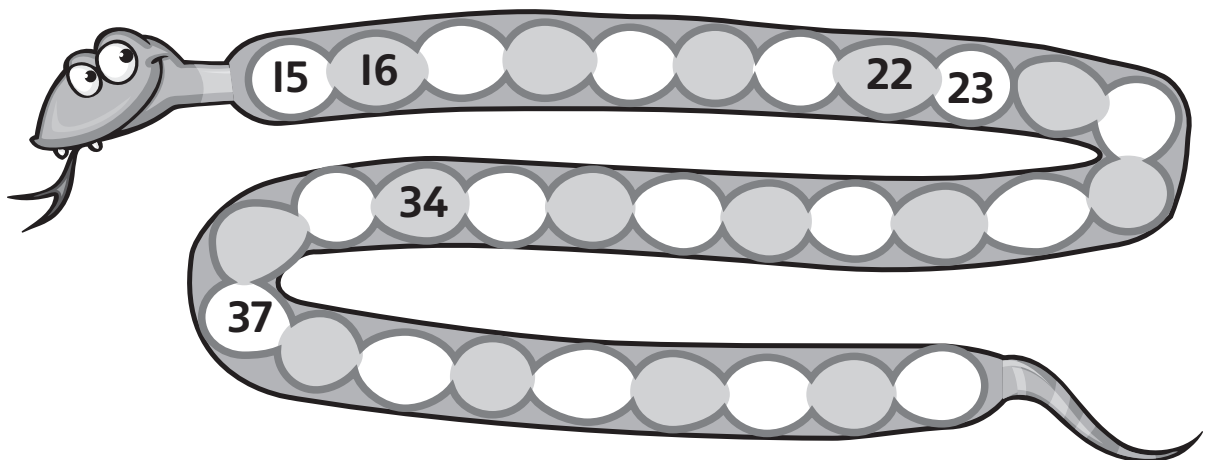

- 1 Find someone to practise counting with you to 100 and beyond! Now can you count backwards?
- 2 Create a small pile of, for example, blocks. Estimate how many are in the pile. More than 10? More than 20? Count to check.

Estimate means make
a sensible guess.

Number snake challenge!

- 3 Fill in the missing numbers on the snake.

Ordering 2-digit numbers

Write the three numbers in order from biggest to smallest.

4 26, 17, 51

, ,

5 31, 70, 36

, ,

6 Write your own three numbers for someone else to order. Have they done it right?

Write < or > between the numbers in each pair.

7 23 32

9 73 37

11 82 28

8 45 60

10 53 51

12 39 41
