

Year 2 - Measuring in centimetres and metres

abacus Mastery Checkpoint

Have you mastered measuring in cm and m?

- a) How many crayons can be placed along this line?

- b) How many centimetres long is this line?

Say why it is better to measure in centimetres.

Champions' Challenge

1. Which is longer, the snake or the stick?

2. If the stick is this long, how long do you think the snake is?
