

Addition workout

Use a column method or another way of partitioning to work out these additions.

1 $534 + 217$

3 $652 + 283$

2 $458 + 326$

4 $374 + 262$

- 5** Write a pair of numbers with a total of 750.
Neither number must have a zero in it!

Mmm, tricky. Pairs
to 10 might help.

Dart trios

- 6 Which dartboard do you think had the top score?
Work out each score to find out.

Make 180!

- 7 On which dartboard is it possible to score 180 with three darts, each on different numbers?
- _____

I found this:

Easy

Challenging

I needed help
